- 1 The euro area comprises: Belgium, Germany, Greece, Spain, France, Ireland, Italy, Luxembourg, the Netherlands, Austria, Portugal and Finland.
- 2 November 2006 data for Portugal were under embargo at the time of publication. However, Portuguese data were used to compute euro area, EU and EEA totals.
In October 2006, Italy changed its price collection period. Collection is now taking place between the 1st and the 21st of the reference month. Until September 2006 the collection period was between the 16th of the previous month and the 15th of the reference month. Figures from October 2006 onwards may be subject to revision.
- 3 The EICP (EICP='European Index of Consumer Prices' as defined in Council Regulation (EC) No 2494/95 of 23 October 1995) is the official EU aggregate. It covers 15 Member States until April 2004 and 25 Member States starting from May 2004. The ten new Member States are integrated into the EICP starting from May 2004 using a chain index formula.
- 4 For the USA and Japan the national CPIs are given, which are not strictly comparable with the HICPs.
